YOUR DISTRIBUTOR

2 OPTIONS FOR AUTOMATIC MODES OF OPENING

with adjustable sensitivity.

- 1. **MAGNETIC SENSORS:** for steel posts, usable before the leaves fall.
 - or
 - 2. **OPTICAL CELLS:** for all type of posts.
- both also with
**MANUAL OVERRIDE OF AUTOMATIC MODES,
VIA HAND HELD SWITCH.**

HAND HELD SWITCH:

- For convenient use.

SAFETY

- A simple spring system adjusts the blade pressure to ensure a quality cut, whilst also protecting trellis post.

SIMPLICITY / MODULARITY

- This type of disc offers excellent performance whilst protecting the trellis wires.
- The cutting height is modular. Desired number of cutting disc can be easily achieved.

HYDRAULIC DAMPERS

ROBUST FRAME

- 3 CYLINDERS:
 - up/down,
 - in/out,
 - cross slope.
- OPTION: power pack.
